

# Mobile Food Distribution

## What are Mobile Food Distributions?

Mobile Food Distributions allow us to go where hunger is, instead of hunger having to find us. Each month, South Dakotans facing hunger can receive grocery boxes pre-packed with foods such as fresh or frozen produce, meat, shelf-stable items, dairy products, boxed meals, and more.

Sites are hosted by a Feeding South Dakota partner and are set up drive-through style, where volunteers load food directly into the vehicles of those utilizing the program. All in need of food assistance are welcome to come and receive food at no cost to them.

\*This institution is an equal opportunity provider.
